SNOWDEN AGREES

Germany To Suffer Under New Terms Offered Britain by Premier of Belgium.

## ENGLAND TO GET PROPOSED BANK

Powers Also Offer To Increase Amount of Money To Be Paid—Other Claims Met.

The Hague, August 16.—(United News)—A solution to the deadlock which has gripped the international reparations conference here for the last week appeared nearer tonight when Philip Snowden, British negotiator of the delegates, agreed to negotiate with the delegations of France, Italy, Belgium and Japan on British demands for revision of the Young plan.

The scheduled meeting of the financial commission for tomorrow has been postponed and private negotiations will continue on the basis of a note presented to Snowden this morning by Premier Henri Jaspar, of Belgium.

**Concessions Likely.**  
The United News learned from an official source that the note said the four powers are prepared to approach the British demands for a greater share of reparations by making concessions.

Contents of the note greatly increased the hopes of delegates for a settlement of the crisis. When Dr. Gustav Stresemann, German foreign minister, was informally informed of the note, however, there was some consternation among the German delegates. It was said that virtually all of the concessions were made at Germany's expense.

As the great progress made toward evacuation of the Rhineland depends on solution of the deadlock, the impression prevailed that Aristide Briand, French prime minister, has already created a situation where Germany must agree to concessions at her own cost or assume the role of preventing a settlement and thus delaying solution of the Rhineland problem.

**Details Lacking.**  
The note which Jaspar handed Snowden and which Snowden asked for more time to consider did not contain definite figures but merely enumerated the proposed concessions, according to an authoritative summary made available to the United News.

Although the note made no reference to the international bank, the four powers informed Snowden they were agreeable to having the bank in London.

The confidential note first described the advantages of the Young plan to Britain and emphasized that Germany, France, Belgium, Italy and Japan had accepted the plan in principle while Britain is the only power holding out.

It said that, during the first ten years, England receives more under the Young plan than it pays the

Stand Trial on Attack  
Charge Brought by  
Young Girl Dancer.

Los Angeles, August 16.—(UPI)—Municipal Judge Leonard Wilson today held Alexander Pantages, millionaire theater owner, for trial in superior court on charges of attacking 17-year-old Eunice Pringle in his private office a week ago. The judge's decision was given after three days of preliminary hearing.

Pantages was held to answer on two felony counts, the court ruling that "there is sufficient cause to believe the defendant guilty thereof."

The theater magnate remained at liberty, pending trial, on \$25,000 bond. The date of his trial was not set.

In connection with the holding of Pantages, Judge Wilson saw fit to explain that in so doing he was not passing upon the guilt or innocence of the theater magnate, except in so far as evidence admissible to legal trial was concerned.

"On account of the prominence of the defendant and the wide publicity which has been given this hearing, the court believes it proper to describe the nature of the proceeding which have just come to a close," Judge Wilson said in a formal statement from the bench.

"This is a preliminary hearing. The court is not called upon, nor is he permitted to pass upon the guilt or innocence of Mr. Pantages at this time. Nothing said herein shall therefore be construed that this point is finally decided. He is now and will be at all times thereafter until the case is finally submitted to the superior court, clothed with the presumption of innocence. The defendant has elected not to take the witness stand, not to put on any defense in his behalf, nor is he required to do so."

ZEPPELIN REACHES

on Flight to Tokyo and  
Discovers Vast Forest  
Fire in Siberia.

BY THE ASSOCIATED PRESS.

The Graf Zeppelin, racing eastward toward Tokyo through the short Siberian summer night, last night (Friday) passed the halfway mark on the second leg of her round-the-world flight.

A report to her home hangar at Friedrichshafen gave her position as 80 degrees east longitude, 62 degrees north latitude. This placed her about 2,900 miles from her home hangar with only a slightly greater distance between her and Tokyo. This position is about 300 miles northwest of Tomsk, just south of the arctic circle.

An unofficial report giving the information said that the dirigible had headed for the northern end of Lake Baikal. Should she pursue that course, the continuation of the straight line would carry her across Harbin, Manchuria, to the approximate situation of Tokyo.

The airship left Friedrichshafen at 11:34 p.m. eastern standard time on Wednesday. At the time given in the report to the Zeppelin works she had thus been in the air almost 42 1/2 hours and her average speed had been about 85 miles an hour.

## Three More Lives Claimed By Forest Fires, Report Says; 2,000 Fight Blazes

Unconfirmed Story of  
New Deaths Brings Toll  
to Six Within Past Ten  
Days.

Seattle, Wash., August 16.—(AP)—Spurred on by unconfirmed reports that forest fires in Washington had claimed three more lives, an army of nearly 2,000 men today fought desperately to bring the blazes under control.

More than 50,000 acres had been blackened in the Chehal National forest, Okanogan and Ferry counties in Washington.

Missing since yesterday and feared

to have fallen victim to the flames, P. C. Ingraham, from the federal district forestry office in Portland, and Ermannie St. Louise, Chehal youth, was recovering in a Wenatchee hospital from serious leg injuries received when the heat of an ax flew while he was working with a fire crew.

Meanwhile the United States army moved to assist the exhausted fire fighters. Major General John L. Hines, commanding officer of the Ninth corps area at San Francisco, issued orders for Lewiston to send the United States forester for the district to render whatever aid is desired.

Crow Indians, filled with superstitious fear of forest fires, believing that columns of smoke arising from them are infested with evil spirits, were pressed into service to help fight a stubborn fire in Lodge Grass canyon, 70 miles northwest of Sheridan, Wyo.

### Ten-Day Battle.

For ten days white men under direction of Fred Agee, superintendent of the Big Hogn National forest, have been fighting the fire, and the Indians have held back. Today Reg Pierce, farmer agent for the United

States Indian department, banded together a few Indians to help fight the Kootenai forest fires.

Larry Larsen, 21-year-old Portland youth, was recovering in a Wenatchee hospital from serious leg injuries received when the heat of an ax flew while he was working with a fire crew.

In northern Idaho the situation was reported the best in a week.

The White mountain fire in the Cascades in central Washington continues to spread rapidly. The big Chehal fire added 6,000 acres in the last two days to the devastated area.

At the same time the service issued a compilation of the forest fire losses during last year. This showed 4,428,500 acres of protected forest land burned with an estimated loss of \$8,583,020 and 39,502,810 acres burned in unprotected areas with a \$74,350,000 loss.

Last year's record demonstrated the effectiveness of the service's organized protection in holding down forest fire losses. Of the 568,354,010 acres of forest land in the United States, 68.5 per cent last year had some sort of organized protection, either by the government, private owners, or by federal, state and private

agencies co-operating under the Clarke-McNary law.

There were, however, 178,855,050 acres or 31.5 per cent of the total area still in need of protection.

### Less Than Eighth.

Fire damage on the protected area was less than one-eighth of that on the unprotected area. The service's reports showed a total of 177,362 forest fires in the United States last year, of which 40,579 broke out on protected lands and 136,362 on unprotected areas.

The forest service said that careless smokers had caused 8,346 fires or 20 per cent of the total. Incendiaries ranked next as a cause, being responsible for 7,276 fires or 17.9 per cent.

The states around the Gulf of Mexico had the greatest number of 1928 fires with 96,125 unprotected area fires and 12,987 blazes in the protected forest.

An examination disclosed a severe bruise on the temple, a fractured skull and the fact she was a prospective mother. Coroner F. E. Tryon

announced that he believed the girl had been murdered and ordered the search for her husband redoubled.

Parillo and his bride registered August 7 at a hotel here. Next day he was gone for a boat ride on Devil's lake and two days later the empty boat, except for a camera and some wearing apparel of the couple, was found adrift.

Chicago authorities said Parillo had taken out a marriage license July 26, and that the marriage took place August 3.

Rev. J. Gorham Garrison, preached Sunday morning at the First Baptist Church, Rev. E. Callaway, pastor of the Thomasville First Baptist church, took charge of the preaching services for the remainder of the week.

## TUNNEY ARRIVES IN PARIS TO SPEND TEN-DAY VISIT

Paris, August 16.—(AP)—Gene Tunney, former heavyweight boxing champion, and his wife, the former Polly Lauder, arrived in Paris today from Brioni in the Mediterranean, for a 10-day visit.

Mrs. Tunney had so completely re-arranged her recent operations to accommodate that when she arrived here with her husband she was able to inaugurate an active shopping tour with Tunney vainly trying to keep up the pace.

## MOSLEM'S JEWS BATTLE AT WAILING WALL OF TEMPLE

Jerusalem, August 16.—(AP)—Trouble between Moslems and Jews over the western wall of the temple, commonly known as the wailing wall, broke out again today with an invasion by Moslem masses of the lane along the wall.

The Moslems gathered in the Mosque Omar and broke through both the new gate and the old entrance. They were stated to have committed depredations, including robbing the altar and severely beating one of two Jews found there.

## CITY OF MANCHESTER MARKS 20TH BIRTHDAY

Program Includes Parade, Ball Game, Barbecue and Speeches.

LaGrange, Ga., August 16.—(Special)—Claiming the distinction of being the youngest and only town of its size in Georgia to have paved streets, Manchester, the central-western section of the state today celebrated the twentieth anniversary of its incorporation.

The day's festivities were marked by many prominent visitors, a program of speeches, a barbecue, a spectacular parade and a baseball game.

Hoke Smith, former senator, was the speaker of the morning, and was preceded by Casper J. Callaway, of Callaway Mills, LaGrange; Judge Henry Revill, Greenup, B. L., Georgia, representative A. B. & C. R. R.; J. A. Perry, LaGrange, and J. R. Gay, chairman board commissioners, Meriwether county, all of whom paid tribute to the business genius of the town builder, the late F. E. Callaway, of LaGrange, and expressed anticipation of the continued growth of Manchester.

I. H. Davis, chairman of the board of commissioners of Manchester, introduced the speakers. I. N. Johnson delivered the address of welcome. A Georgia barbecue was served after

noon and a parade of floats sponsored by civic organizations and business houses was held. The parade was headed by the Southwest LaGrange band, followed by cars in which rode all "charter citizens" of Manchester, those who have lived there since the town was incorporated.

### FLOATS

About 30 entered in competition for a cash award offered by the Manchester Kiwanis Club. The prize winning float was the city of Manchester's entry and showed a huge birthday cake.

The Manchester Cotton Mills' baseball team crossed bats in a spirited contest with the Dunson Mills team, of LaGrange.

**TIMID INDIAN RACE IS AFRAID TO FISH, DECLARED**

New York, August 16.—(AP)—A race of Indians along the Orinoco river in Venezuela this year, it was found, was not as described by Dr. Herbert S. Dickey, of the American Indian Hero Foundation upon his arrival from the Farne Islands liner Silvia.

He said the Indians live secluded in a canyon 1,000 miles up the river and subsist entirely on worms, bugs and ants. They do not eat animals in the belief that the souls of men enter the beasts after death.

Dr. Dickey, who had set out to trace the headquarters of the Orinoco, termed his expedition a "dismal failure." He was forced to return after traveling 1,200 miles upstream by the loss of the outboard motor of his sailing yacht.

Ex-Secretary Held In Alleged Plot To Poison Oil Man

Ponca City, Okla., August 16.—(AP)—On a charge of "attempt and conspiracy to kidnap, rob and kill by poisoning" Dr. Hyde, young ex-secretary to Samuel C. Collins, former president of the Maryland Oil Co., was held in jail tonight at Newkirk. Authorities believe Hyde, a lawyer, attempted to poison Collins last night in order to cover up alleged shortages in accounts he handled for the oil man.

Hyde was arrested last night in front of Collins' home here, when caught, authorities said, in an attempt to kidnap Collins. A man whose name was withheld had revealed to officers that Hyde sought to engage him in carrying out the alleged plot against the former Maryland oil man. At the request of county authorities the man pretended to go through with Hyde's plan.

Officers lay in hiding as Hyde and the man drove up to the Collins' home last night, not making their presence known until after Collins had been taken to his porch in a piano and taken to Hyde's automobile. Collins, who had been apprised of the plot against him, refused until last night to believe Hyde could have anything to do with it.

When arrested, Hyde had in his possession a large quantity of a deadly poison and a pint of whisky which contained the same poison. He refused to talk.

## SEVEN IN NON-STOP AIR RACE FOR SUNDAY

**Jaunt Los Angeles-Cleveland Draws Nationally Known Group.**

Los Angeles, August 16.—(AP)—Seven nationally-known pilots today had entered the non-stop air race between Los Angeles and Cleveland, which starts Sunday, August 25, as feature of the national air races.

They are Captain Frank Hawks, of Los Angeles and Lt. York, holder of coast-to-coast non-stop records for both eastward and westward flying; Lee Schoenbar, trans-continental flier who, on a recent non-stop attempt from Los Angeles to New York, was down in Kansas; Lt. C. C. Perry, of Los Angeles, and Lt. J. A. Perry, LaGrange, and J. R. Gay, chairman board commissioners, Meriwether county, all of whom paid tribute to the business genius of the town builder, the late F. E. **CHURCH TRUSTEE ADMITS ROBBING BANK IN VILLAGE**

Providence, R. I., August 16.—(AP)—Unable to play the role through Carl G. Hockett, 40-year-old church trustee of Uxbridge, Mass., and for 20 years a respected citizen of that town, confessed today that it was he who invaded the First National bank at Slaterville yesterday and robbed it of \$3,000. He admitted he did it with a gang of trans-continental bandits.

He was whisked from the Slaterville town hall to the Woonsocket county courthouse where at a special arraignment he waived examination and admitted sufficient evidence to be bound over for the grand jury.

Hockett wore a false mustache upon entering the bank. The disguise worked loose, however, and he left his hideout, putting out his plans to go to a near-by town for collation to make the mustache secure.

He effected the holdup on his return, but on this occasion Charles H. Seagrave, Jr., cashier, caught a better view of his face and saw a resemblance to the church trustee.

Police recovered about \$1,700 of the loot in Hockett's home.

**Brancati Mystery May Be Cleared Up By Sicilian's Arrest**

Baltimore, Md., August 16.—(AP)—The mystery of the disappearance of Dr. Charles Brancati, Bronx physician and stock market operator, may be cleared up by the arrest of Mimi Rizzuto, whose real name police say is Luigi Romano, friend of Brancati, who disappeared at the same time last November.

Rizzuto has been placed at the disposal of the American authorities. The Italian police alleged that Brancati, a few days before his disappearance, had been present at a meeting of the Hardy & Company bank permitting withdrawal of the Brancati account of a quarter of a million dollars. Romano disappeared simultaneously with Brancati taking with him the whole deposit.

## Georgia Girl Is Home Again MOTORCYCLE TAKES HER TO TWO COUNTRIES After 5,000 Miles on Wheel

Surprisingly fresh after 150 miles of Georgia roads and detours, Miss Vivian Bales, 19-year-old Georgia girl, arrived here Friday afternoon on the last lap of an 11-week tour which has taken her through a score of states, into Canada and over 5,000 miles of highways atop a roaring motorcycle.

Miss Bales, who teaches dancing for the greater part of the year, is the daughter of Mr. and Mrs. C. O. Bales, of Albany. She took up motorcycle riding about three years ago and made several short tours through Florida and Georgia.

Feeling the need of a vacation this summer she decided to take it with the aid of her motorcycle and planned a trip which included Canada. She set out on June 1.

She stopped on the Atlantic seaboard, first important port of call was Tulsa, Okla., winner of last year's Class "C" race from San Francisco to Los Angeles during the national air races; John P. Wood, winner of last year's national air tour; Harry J. Brown, Cleveland aerial mail pilot; Oliver C. Lebouillier, of New York, and Art Goebel, winner of the Dole air race from California to Hawaii in 1927.

Under the rules the contestants may leave Los Angeles any time Sunday, but must finish at Cleveland by 4 and 6 p. m., Monday, August 26.

**FLORIDA COUNTY PLANT BOARDS HELD INVALID**

Bradenton, Fla., August 16.—(AP)—In holding unconstitutional a legislative act of 1901 under which county plant boards have been formed in a dozen counties, Circuit Judge W. T. Harrison, in effect, ruled them illegal.

His opinion was handed down here yesterday in granting a permanent injunction against the Manatee county board, preventing it from destroying guavas at Palma Sola, near here.

The jurist based his action on the belief that the legislative act conflicted with organic laws, because it gave unlimited power to govern to public officers neither appointed by the governor nor elected by the people and that such powers are vested only in the state plant board.

The action was brought by Mr. and Mrs. F. E. Smith, owners of a large grove and operators of a preserving company. They alleged the county body sought to destroy their fruit in a campaign against the spread of the Mediterranean fruit fly eradication hearings.

The county plant commission of Manatee county was purely a local affair, it was said, and was formed under provisions of a act of the legislature of 1901. It was in 1927, when Judge Harrison decided against the state plant board, on the contrary, operates under what is known as the Florida plant act of 1927; and no complaint against the state plant board nor its operations, nor any attack upon the state plant act of 1927 was involved in the proceedings in Judge Harrison's court.

STATE BOARD IS NOT TOUCHED.

Orlando, Fla., August 10.—(AP)—The decision of Judge Harrison, of the circuit court at Bradenton, concerning the illegality of the plant boards of Manatee county, has no relation whatever to the state plant board or its activities, it was said today at Orlando fruit fly eradication hearings.

## NORRIS' CHURCHYARD AGAIN SWEEP BY FIRE

Educational Building Razored. Spark From Torch Causes Blaze.

Fort Worth, Texas, August 16.—(AP)—Fire today again swept through properties of the First Baptist church here of which Dr. J. Frank Norris, noted fundamentalist, is pastor, destroying its educational building.

The blaze was caused by a spark from an acetylene torch with which workmen were cutting away steel girders from the ruins of the church's auditorium destroyed by fire last January. Several times before firemen had been called to extinguish flames in the building from the same cause.

### Battle for Hour.

Seven companies of firemen battled for more than an hour to keep the fire from spreading. A filling station near by added to the danger. Employes of a near-by four-story building were forced to flee when smoke poured into their office.

In 1912 the First Baptist church was destroyed by fire. Dr. Norris was indicted and tried on charges of arson in connection with the blaze. After a bitter court trial, he was acquitted.

The structure was rebuilt, but was razed again by flames the first of this year while Dr. Norris was visiting Atlanta. The members had cooled out investigations and found several cans believed to have contained gasoline. The origin of the fire, however, never was decided. The educational building was damaged by the January blaze.

### Threats Charged.

The church's pastor repeatedly has charged that threats have been made against his life and the property of

his church as a result of vigorous campaigns he has conducted against so-called vice and criminal elements in Texas.

Dr. Norris was before the public eye two days ago after he shot and killed E. E. Chipp, a Fort Worth lumberman, in his study at the church building. His trial was transferred to Austin on a change of venue, and after sensational testimony was introduced, he was acquitted. The pastor claimed Chipp had threatened his life.

No estimate of today's loss had been made. Dr. Norris is in Wisconsin with his family on a vacation.

### LOCAL DELEGATES TO SCOUT MEETING TO TOUR EUROPE

Following the close of the great international Boy Scout jamboree at Birkenhead, England, Atlanta's representatives to the two weeks' meeting are planning two tours to take them to continental points of interest, it was learned here Friday.

A cablegram sent from London by Scoutmaster C. H. Westin to W. A. Dobson, local scout executive, announced plans for the extended trips. Douglas Oliver, David Martin and W. L. Brady, Jr., with Scoutmaster Westin, will go to Copenhagen for a Scandinavian tour. Scouts Paul Seydel, Tom Bell and Albert Waldon, with other Atlanta scouts, plan to travel through England, France and Belgium. Both groups will return to the states shortly after September 1.

### Clothing Souht.

Preparation for school days will soon claim the attention of family heads and thousands of Atlanta children. With approximately 50 children to care for, the American Rescue Workers have 420 Piedmont Street, applying for donations of clothing for the children in their care, for the winter school months. The Rescue Workers will call for any clothing which Atlantans have to give them.

In a telegram to Mrs. Clarke, Mr. Clarke said he would return home

### GOVERNOR'S OFFICE INVADED BY THIEF; JEWELRY STOLEN

The governor's office was invaded by a sneak thief late Friday afternoon with the result that Miss Mallye Johnson, one of the clerks, lost a pocketbook containing a valuable cluster diamond ring, a platinum brooch and some currency. John Wilson, secretary to the governor, notified the police of the loss. The pocketbook was stolen from the record room, at a time when Miss Johnson was visiting the ante room of the governor's office.

John A. White, chairman of the city parks committee, Friday issued a warning to persons who have been violating committee rules on city golf courses.

Gamboling on courses, and galleries on the links at prohibited times constitute major offenses which have been indulged in. Section 2073 of the city's drastic regulation of persons who violate the rules of the park committee. Mr. White stated Friday that the rules will be rigidly enforced.

### FRANCIS CLARKE ARRIVES IN U.S. AFTER ORIENT TOUR

Francis W. Clarke, managing editor of The Constitution who, with a number of other leading newspapermen and journalists, has been making a study of conditions in the Far East for the Carnegie Endowment for International Peace, docked Friday at San Francisco, with four of his associates.

Mr. Clarke and his fellow journalists have been in the Orient almost four months.

In a telegram to Mrs. Clarke, Mr. Clarke said he would return home

next Thursday. He said he would make the trip from the west coast by way of Chicago, stopping there a day or two.

### Social School Work Given Increased Aid By Rosenwald Fund

The Julian Rosenwald Fund executive committee has increased its appropriation for the Atlanta School of Social Work. Professor Forrestor B. Washington was informed Saturday. Professor Washington is director of the school.

The Atlanta school, an institution organized to assist negro groups, has been considered successful from its outset and has been given considerable aid by various association and endowment funds.

### SINGERS OPEN MEET

#### Sacred Harp Group Holding Three-Day Sing.

The annual three-day sing of the Sacred Harp Singers began Friday in the courtroom of Judge John D. Humphries at the Fulton county courthouse. The singers, who déliver a basket lunch at noon each day, S. C. Mann, of Atlanta, is in charge of the singing meet. The Sacred Harp book, one of the oldest song books in existence, is being used by the singers. It was published in 1844 by Major B. F. White.

## Liquor Pirate, Slayer of Two Coast Guardsmen, Resigned To Hanging by U. S. Today

**Killer Who Shot Captor in Back Now Holds Bible in His Hands and Quotes Scripture.**

**Fort Lauderdale, Fla., August 16.—**(AP)—Resigned to his fate and without show of nervousness, James Horace Alderman, 50-year-old rum pirate, spent his last night in the Broward county death cell under heavy guard. At 10:30 a. m. on the coast guard base tomorrow, Alderman is to hang in a metal seaplane hangar on the coast guard base here for the killing of two coast guardsmen in a gun fight on the high seas two years ago.

Still holding the Bible which he has been his constant companion for the past few weeks, Alderman spent the last few hours before his retirement with members of his family who brought him flowers and arranged to carry out his last wishes.

### Reads Scripture.

Most of today was spent by the condemned man in reading. Scratches either to himself or to the two guards who nervously paced the floor in front of his cell. Occasionally Alderman would raise his eyes from his Bible and request the guards to "go sit down and don't be nervous."

At 10:30 when he was in his guard, Alderman started to review his life, but stopped abruptly and began to meditate. "This old body of mine is here," he said, "but my soul is in heaven with God. I will be with you until Saturday morning and then I am going to heaven."

Final preparations were completed late today for the execution. The scaffold, erected in the metal airplane hangar, was tested. A heavy guard was placed about the coast guard base to prevent entrance of any but the officially designated witnesses.

### Inside Wire Fence.

The seaplane hangar in which the execution is to take place is located inside a high wire fence a short distance from a roadway. Within the metal walls and surrounding the scaffold are numerous discarded equipment from rum boats which were captured by coast guardsmen. Other captured and tools lie scattered about the floor.

Located on a peninsula the coast guard base is surrounded on the east by the Atlantic ocean, on the south by New River, and on the west by the New River sound.

Traversed by the inland canal, entrance to the ground is under heavy guard and no one but those connected with the base are permitted to enter. Alderman, who followed a seafaring and checkered career for years in south Florida, was condemned to die for murder of Sidney Sanderlin and Victor Lamby, during a rum battle in August, 1927. Robert K. Webster, a

secret service agent, also was killed and another coast guardman, Jodie L. Hollingsworth, was seriously wounded.

### 40 Miles Off Coast.

The battle occurred 40 miles off the coast of Florida and Alderman was thwarted in his announced plan to make the survivors of the captured crew walk the plank in true piratical fashion. The coast guard boat, bound for the Bahamas Islands, pulled alongside Alderman's liquor-laden craft. Alderman and his companion, Robert Weech, were taken captive. Alderman openly seized a revolver and shot Sanderlin and Lamby. Alderman was attempting to use his weapon to inform the base of the capture. Lamby dived for a hatch but Alderman picked him off with a fatal shot.

Ordering the remainder of the crew of six to stand by, Alderman bound the rum boat. Alderman lined them up at the rail at the point of a gun and told them he was going to "make you all—walk the plank."

The murderer directed Weech to go aboard the coast guard boat and get the gun after destroying the evidence of the crime. At this juncture, Webster, the secret service man, rushed Alderman. Alderman shot Webster and killed him. In the instant he gave the rest of the coast guard crew a chance to rush the slayer, Alderman was struck over the head by a heavy wooden beam.

Binding their captives to the deck with heavy chains, the coast guardsmen turned back to the base where their report was made.

### TEXAS DELEGATION, HEADED BY MOODY, TO VISIT ATLANTA

**Texas**, Fla., August 16.—(AP)—Ritter to house the gallows for the hanging of James Horace Alderman, convicted and sentenced for the slaying of two United States coast guardsmen off the Florida coast. Inset shows Alderman and the Bible which has been his companion since his recent conversion to the Christian faith.

### TENNESSEE WOMAN AND HER DOG KILL FIFTY COPPERHEADS

**Lawrenceburg, Tenn., August 16.—**(AP)—Bureaus and civic clubs that consistently stress the benefits of co-operation may use this story as an example. A woman and her dog co-operated and killed 50 copperheads near here.

Mrs. Pick Thompson found a large snake under a rock and her dog seized it. He shook it vigorously and each snake produced a snake. The little snakes were shaken out of their mother's mouth. Mrs. Thompson killed 49 snakes with a stick. The dog shook the mother to death.

### FEDERAL OFFICERS STAGE LIQUOR WAR

**Columbus, Ga., August 16.—**(AP)—Reports of raids this week in five counties in which seven liquor manufacturing plants were destroyed, ten persons, one of them a white woman,

were arrested and 250 gallons of liquor and several thousand gallons of beer seized were made here today by W. K. Johnston, Jr., federal commissioner.

Commission were wasting their time if council failed to follow their recommendations. Pressure of personal business caused Mr. Pittman's resignation, he said.

### NEW JAIL, ESCAPE PROOF, NO COOP TO SOLE PRISONER

**Palatine, Ill., August 16.—**(AP)—The reason Palatine didn't dedicate its new escape proof jail this week was because the event escaped especially for the event escaped.

The dedication was to have been held Tuesday on Monday night, but the weather was so bad the town for a jail guest, finally arresting A. L. Fialka, of Chicago. The following day found Fialka gone, he having decided that the escape proof jail was merely a figure of speech.

Chicago police yesterday arrested Fialka and held him on a charge of jail breaking. The police believe it is not unlikely that when the Palatine jail is dedicated next week its prisoner will be Fialka, and the charge against him will be escaping from the jail being dedicated.

### INTERVENTION OF U. S. IN NICARAGUA LAUDED

#### New York Author Upholds Action in Freeing Canal Zone of War.

**University, Va., August 16.—**(AP)—Hugh Gordon Miller, New York lawyer and author, upheld intervention in Central America as the "moral obligation of the United States in freeing the Panama Canal area of war," in a speech on "The Monroe Doctrine" at the institute of public affairs at the University.

Great Britain and the United States have like duties to keep unimpeded two great avenues of commerce, the Suez and Panama canals, he said, urging closer union of the two English-speaking nations in fulfilling their obligations.

The speaker made one criticism in connection with intervention. "President Coolidge," he said, "was over-cautious in withdrawing marine forces from Nicaragua."

Professor William E. Dodd, of the University of Chicago, is "blind to the facts of recent history," Mr. Miller declared, answering Dr. Dodd's charge earlier in the institute that "a gospel of help for the weak has become a cover for the exploitation of Cuba, of Nicaragua and San Domingo. Since American intervention, order and progress have emerged from chaos," said Mr. Miller.

"It is really not arguable that the undoubted right of the Central American republics to govern themselves should be overridden by the United States," he said.

The sheriff's forces in Talbot, Harris, Meriwether, Marion and Upson counties assisted Johnston in the raids. Included in the stills destroyed were two 800-gallon outfits and one 300-gallon plant.

### MAYOR APPOINTS NUTTING ON BOARD OF CITY PLANNERS

**J. R. Nutting, prominent Atlanta insurance man, has been appointed a member of the city planning commission by Mayor Ragsdale. Mr. Nutting, who succeeds J. H. Ewing, recently resigned, accepted the appointment Friday.**

City council recently adverised a planning zoning regulation and by a vote of 10 to 2, approved the plan of J. H. Ewing and Frank Pittman were tendered shortly after. In announcing his resignation Mr. Ewing said that members of the planning

### GEORGIA BANK HEAD IS SHOT; TENANT HELD

**Four loads from shotgun sweep Dr. A. M. Brooks down.**

**Lawrenceville, Ga., August 16.—**(Special)—Curtis Brooks, wounded to the joints of his right arm, fell into his body from a shotgun alleged to have been in the hands of an irate tenant, Dr. A. M. Brooks, president of the Logansville Banking Company and large landowner of Logansville, who is in a serious condition, according to physicians.

Police were holding E. M. McCarty, tenant on Dr. Brooks' farm, who is alleged to have fired four loads of No. 6 shot from a shotgun almost at point-blank range into the banker as the latter alighted from his automobile in front of the McCarty residence.

Previous disagreement between the two arising when Dr. Brooks is said to have cut the ration allowance for the McCarty family, was assigned by officers as the cause for the shooting.

Dr. Brooks, who is 60 years old, was rushed to an Atlanta hospital following the shooting. His body and arms were peppered with the shot. He is a practicing physician in Logansville.

### ADMIRAL NIBLACK IS CRITICALLY ILL AT NICE, FRANCE

**Nice, France, August 16.—**(AP)—The Florida Times-Union will say tomorrow that it has been learned that increased liquor smuggling from the Bahamas to south Georgia and north Florida due to the difficulty of rum runners to get through the fruit fly quarantine lines has resulted in increased coast guard patrols patrolling waters in this section.

Seven patrol boats from St. Petersburg and four from the coast guard base at Pascagoula, Miss., have been added to the Fernandina base, it was learned, and the coast is now being patrolled in nine 100-foot and three 125-foot offshore boats.

The four vessels from the Mississippi base, in addition to one stationed permanently at Fernandina, came into port here this afternoon and sailed for Fernandina after a cruise during which the craft were said to have visited Georgetown and Charleston, S. C., Savannah and Brunswick, Ga., during a two weeks' cruise which started from Fernandina.

## NEW ORLEANS STRIKER REVEALS DEATH CACHE

**Dynamite Store Is Bared.**  
Jitney Drivers Seek  
Injunction.

New Orleans, August 16.—(AP)—The street car strike took sudden turns today when a striking motorman revealed in federal court an alleged cache of dynamite. Jitney counsel prepared to ask for a court injunction against police interference with "free rides" and Herbert B. Flowers, president of the public service, and 27 non-union motormen were arrested on charges of violating the city ordinances regulating street car safety appliances.

Albert Bendix, convicted in United States court of violating the federal injunction prohibiting violence against the car company, signed a statement presented in court, alleging that explosives to be used in the strike were stored in a locked room inside a house and Boulevard street.

Bendix was arrested and tried along with Isaac J. Cavalliere before Judge Rufus E. Foster, each was sentenced to serve six months in prison. The two men were found by United States deputy marshals in an automobile which contained boxes and bags of powder cases. "Bendix, in the statement, said he did not know 'at headquarters, and on many occasions, I would see automobiles drive up in front of the place and a man would get out and go right back to the locker and place it there. The most I have seen in one time was six sticks of dynamite."

"The locker in headquarters," continued the statement, "is not locked, and anyone of the striking carmen can get to it."

The jitney men, with the backing of the striking car men in front of the court, claimed their rights were denied under an opinion given by Bertrand L. Cahn, city attorney, holding that "free rides" with a donation would be construed as a violation of the city ordinance banishing jitneys and would subject the drivers to prosecution. City ordinances regulating public traffic hit both sides down, and as a result the courts were busy disposing of several score of cases before them.

An investigation into the condition of street car safety devices following fatal accident to a three-year-old child and the charging of a motorman with manslaughter led to the arrest of Flowers and the motormen on 27 cars inspected. All were released on bond. The affidavits charged the safety tenders were "wired up."

The city courts handled nearly a hundred cases of jitney drivers arrested for violation of the ordinance requiring them to wear the drivers, and banished them from designated downtown street car routes.

Restrictions against the jitneys were tightened further today by Superintendent of Police Theodore Ray. He ordered the arrest of all automobile drivers who refused to move on at the command.

**'Peaches' Gains \$500,000 in Cash From Her 'Dad'**

New York, August 16.—(United News)—The bank balance of Edward W. (Daddy) Browning, philandering Cinderella man, dropped yesterday to \$800,000, the amount when Supreme Court Justice Curtis A. Petes confirmed an agreement which restored to Mrs. Frances (Peaches) Browning, his estranged girl wife her full dower rights in 11 valuable parcels of Browning real estate.

"Daddy's" receipt was the calm withdrawal of the suit instituted by Peaches and her mother, Mrs. Catherine Heenan, for restoration of the dower rights.

The settlement followed weeks of negotiations between attorneys. In event Browning dies before Peaches, she will be entitled to the income from certain parcels of his real estate holdings, variously estimated as worth from one to two million dollars.

The suit against Daddy was filed last November 10, after the marital crisis in the Browning household, when Peaches discovered that April 10, 1926, just an hour before their marriage, Browning had transferred his real estate to the Editho Beauty Company, in which he owns all the stock. This transfer has been perpetrated to cheat Peaches out of her dower rights, her attorneys claimed.

The agreement announced today provides that Daddy cannot sell or dispose of any of his dower rights without notifying Peaches and posting bonds which will assure that she doesn't lose by the transaction.

**WOMAN'S SCHOOL OF POLITICS OPENS UP AT WASHINGTON**

Washington, August 16.—(AP)—Mrs. Virginia White Speer, republican national committee woman for the District of Columbia, today announced that a school of politics, open to women everywhere, would be held in Washington late in April or early in May.

Several women's political schools have previously been held under Mrs. Speer's direction, but the coming one will be the first in which she has issued a national invitation as District of Columbia committee woman.

**Manchester Cotton Workers Will Start To Work on Monday**

Manchester, England, August 16. (AP)—Half a million workers will return to their tasks on Monday and the wheels in Cheshire's 1,300 cotton mills will start turning after a six-months' strike.

An eleven-hour conference last night between representatives of the striking operatives and the employers ended in an agreement to submit to arbitration the employers' demand for an all-round reduction in wages of 12.5 per cent.

In the meantime work will be resumed and the old rate of wages will be paid pending the decision of the arbitration court. The court is to consist of five members, two nominated by the employers and three by the operatives and an independent chairman to be mutually agreed upon.

The result of the conference was announced by Sir Horace Wilson, permanent secretary of the ministry of labor, who played the role of mediator.

The strike was costly from many angles. The manufacturers are reported to have lost heavily through imports into British trade by foreign manufacturers. The Blackdown Leathers Association paid \$175,000 in benefits and with the other trade unions assisted in the disbursement of a total of \$250,000 to idle operatives in Blackburn alone.

## OWNER OF MYSTERY BUSINESS GIVES UP TO U. S. OFFICERS

Milwaukee, August 16.—(AP)—Elmer S. Huckins, head of a mysterious business which reputedly pays dividends of 26 per cent annually, today surrendered to federal authorities who

have charged him with using the mails to defraud.

He was placed under \$25,000 bond and will appear to answer for preliminary hearing August 26, with the understanding that there will be another adjournment until September 10.

Huckins today again refused to divulge the nature of the business he

heads and which is purported to have drawn an estimated \$3,000,000 in investments, without solicitation, from hundreds of persons in the middle

west. A report that he is engaged in a "cigar business" has been persistently denied by Huckins and his son and associate, George Huckins, of Cedar Rapids, Iowa.

Huckins' attorney, Walter J. Barns

grover, of Cedar Rapids, appeared before United States Commissioner Harry L. Kellogg with his client and asked for an immediate hearing. The court demurred and fixed the bail at \$25,000.

Columbus, Ohio, August 16.—(AP)—A charge that one or more of the jurors who sentenced Dr. James H. Snook to death by finding him guilty of the murder of his co-ed paramour, Theora Hix, was "unduly influenced"

will be made when arguments are heard Monday on a motion for a new trial, his attorneys said today.

Some of the jurors had decided before they retired from their deliberations, however, that one of Snook's attorneys, declared. The jury found him guilty on the first ballot without a recommendation of mercy. The verdict was read 28 minutes after the trial ended.

Other arguments for a new trial

## ON TRIAL!

The general assembly is on  
trial as to its common sense and  
legislative ability.

In fifty-three days, marked by  
wrangling and cat-hauling, it has  
produced little in the way of re-  
demptive and constructive acts to  
lay before the governor.

Every man who has attempted  
to show the members a straight  
safe road to pay the debts of the  
state and finance it adequately in  
the future has been repulsed and  
every measure carefully constructed  
for those imperative objects has  
been torn to pieces by defective  
amendments until it lost substance  
and appeal.

The body is supposed to repre-  
sent the sanity, wisdom and patriot-  
ism of the Georgia people, but  
its actions are wilder and less co-  
herent than those of the untamed  
and untrained animals of the range  
and the forest. The cattle of the  
plains have the unvarying instinct  
to choose and follow a leader, to  
stick to a trail that leads to water  
and pasture, and to turn their heads  
collectively to the wind that pre-  
cedes a storm.

Ripley has made axiomatic  
throughout the world that "the  
wolf is the strength of the pack,"  
meaning that the pack has its lead-  
er and backs him with all its num-  
bers and power. Hence the pack  
is seldom disarrayed and defeated.

But the Georgia legislature has  
neither herd nor pack leader, and  
mills around without a forward  
movement.

This state is being grossly de-  
meaned and classed by its legis-  
lature. There are not three states  
in the forty-eight of the Union that  
are more able than Georgia to sail  
on even keel and with more favor-  
ing winds.

The state has a negligible public  
debt and assets in hand many many  
times greater than the debt.

She has property values official-  
ly estimated on a federal basis of  
\$4,500,000,000. She has one of  
the lowest property tax rates in all  
America. Her state government,  
with all its institutions, cost the  
people less per capita than in any  
state of the Union, except two—  
Mississippi and Ohio—the one from  
lack of revenue resources and the  
other from excess of them.

The plaint that the people of  
the state are pauperized, bankrupt  
and barefooted is all the dreariest  
of demagogic rot. The cast busi-  
ness overturns in the state at large  
give it the direct lie. The profert  
of tax and mortgage sales advertise-  
ments is a false showing.

The immortal truth is that this  
legislature can yet, in six days, do  
what any board of directors of a  
thousand big corporations could do  
in less time. It can find plenty of  
revenue to pay every cent of the  
state's deficits and delayed dues,  
and to provide a constant inflow  
of money to keep the state and  
its institutions in high efficiency  
on a strictly cash basis. Those  
facts are too plain to be denied or  
dodged by any one in Georgia but  
the best two out of three.

A man carries 8 pounds and 6  
ounces of clothing, and a woman  
2 pounds and 10 ounces. It's the  
clothes that make the man.

If the trio trying for the endur-  
ance flying record fails, the Jackson  
and O'Brien will hold the record as  
the best two out of three.

THE WORLD'S  
WINDOW  
BY PIERRE VAN PAASSEN.United States  
of Europe.

Many a man thinks that the creation  
of a European federation of states  
is the easiest thing in the world. All  
men have to do, so figure these optimists,  
is to be nice to each other and sit down to talk  
things over. The optimists must  
have read any history, and  
they have, in their thinking, to them.  
It will be immensely difficult,  
of course, to make any European nation  
give up a grain of its sovereignty.  
Yet the idea of a federation of Europe  
is not to be rejected out-of-hand as  
a chimera. People have talked about  
it since the days of the League, who  
still know the United States, and  
the first step that is likely to be taken,  
now that the idea is advanced again  
by practical-thinking statesmen, is the  
formation of a customs union, like the  
former, central European, Zollverein.  
America is going the imperialist to  
this movement with a tariff, and we  
have our own huge internal market  
around which a sort of Chinese  
wall is going up higher every day.  
Europe is moving in the direction of  
becoming a continental economic unit,  
purely out of self-defense. But even  
a customs union is difficult to get.  
The nations are already scared of  
each other's economic superiority.  
A league against the American invasion  
is all very well; Europeans, on  
the whole, are not averse to it. But  
it also involves the danger of one of  
the European nations growing so  
strong that it sets up an economic  
domination over the others. \*

Warm objection has been made  
in one quarter to the counsel the  
Constitution has given to the people  
of Atlanta to not get unduly  
and prematurely "het up" over the  
unapplied city-county schools  
merger bill enacted by the general as-  
sembly. It was announced that  
"we can't keep cool when Rome is  
burning." But no fire alarm has  
yet been rung in from Rome. There  
are no signs of a general conflagra-  
tion hereabouts reddening the heavy-  
ens. And no one can set such a  
fire but the people themselves.

Let it be clearly understood that  
there can be no merger of the Atlanta  
and county school systems until  
the people of Atlanta vote for it.  
Heretofore the voters of the city  
have been overcautious. Indeed, to  
probe fully the innards of proposi-  
tions of whatever sort submitted to  
them by referendum. Trust them  
to do that in this case without blowing  
fire trumpets in their ears or  
shooting smoke-screens in their  
faces.

We repeat that the sane and safe  
thing is to develop all the facts of  
the proposition before pronouncing it  
either desirable or damnable.  
That is the wise Atlanta habit.

## A WELL-EARNED HONOR.

It was a very gracious and an  
appropriate act by the city board  
of education when it changed the  
name of the South Boulevard public  
school and designated it as the  
"Jerome Jones School." They made  
the change in recognition of the  
long and faithful devotion of the  
editor of the Journal of Labor to  
the advancement of popular education  
in the city.

Jerome Jones is esteemed by his  
fellow-citizens of Atlanta as a level-  
headed, warm-hearted and progres-  
sive force in the community life.

As a leader in union labor activities  
he has kept a clear and clean per-  
spective of the equities that right-  
fully subsist between craftsmen and  
the citizenry at large. He has stirred  
up no unjust passions, championed  
no class prejudices, fomented no  
divisions of interest between his  
fellow-workers and his fellow-cit-  
izens at large.

Such a leader with poise and  
patriotic complex is a citizen of high  
worth in any community and there  
is no one in Atlanta acquainted  
with Jerome Jones and his useful  
career who will not applaud the  
notable honor awarded to him by  
the board of education.

President Hoover says that the  
apricots sold on the New York mar-  
ket as "grown on his California  
farm" are not a product of his  
farm. He is not in that kind of  
canning business, and besides he  
dispenses plums—not apricots.

The average cost of operating  
and maintaining an automobile has  
been estimated by a motorist's as-  
sociation as \$4.18 annually. But  
there are the snooty drivers who  
are above the average.

Amen the reform in man's dress  
a paper states "man is the slave  
of fashion." And always will be so  
long as there are women in this  
world.

A snooty fellow in the east went  
too far. Instead of marrying his em-  
ployer's daughter, as a college pro-  
fessor advised, the snoot ran away  
with his boss' wife.

A man carries 8 pounds and 6  
ounces of clothing, and a woman  
2 pounds and 10 ounces. It's the  
clothes that make the man.

If the trio trying for the endur-  
ance flying record fails, the Jackson  
and O'Brien will hold the record as  
the best two out of three.

## LOOKING AND LISTENING

BY SAM W. SMALL.

Surely Patriotic Gratitude Is Not a Lost  
Attribute of Atlanta People.

This is Carnation Day, dedicated  
to the relief and benefit work of the  
veterans of the Spanish-American  
War, aided in its purposes by our  
own auxiliaries and the veterans  
of the other wars of the republic.

Great Results Entered Into History.  
At a very small cost the United  
States, for the first time, took their  
place in high honor among the world.  
All Europe, and the world, looked  
upon the Spanish-American conflict  
with new amazement. They did not  
call it "a little war." They said  
"here is a demonstration of quick  
mobilization, skillful fighting and con-  
quering spirit that cannot be over-  
looked or under-estimated with safety  
to any nation."

That was the common verdict of  
the world military experts of the  
cabinet.

We lifted Cuba up from humiliation  
and poverty, dressed her in the robes  
of freedom, made her a new order of  
self-government fully fashioned, and  
introduced her to the family of inde-  
pendent nations to stand equal to  
three century old tyrannies.

That was one of the noblest ad-  
ventures in the history of nations and will  
survive to the end of time as a distinct  
and unrivaled glory of the American  
people. Every one of us veterans who  
survive are justly proud of our partici-  
pation in an enterprise that has borne  
such wonderful and world-changing  
fruits for mankind.

The common notion that it was "a  
little war" is all woefully wrong. More  
time does not measure the character  
and consequences of a war. That of  
the United States against Spain was  
far more momentous in human and na-  
tional effects than the historic "Thirty  
Years' War" that occupys such brief  
space in the histories of Europe. All of  
Napoleon's campaigns did less for human  
welfare than our brief and brilliant  
war with Spain.

Insects and Injuries Prevented.

When, more than 60 days after the  
suspicious disaster to the battleship  
"Maine" in the harbor of Havana,  
President McKinley, with sincere  
reluctance called for a declaration of  
war, he was not alone in his opinion.

McKinley, like most of the  
American people, was not a  
warrior, but he was a soldier, and  
he had a strong sense of duty.

**Gas Tax Amendments Leave  
Firm Without Legal  
Grounds, Says Moore.**

Clarification amendments to allocation provisions of the state gas tax which have been passed by the Georgia legislature and which will go to the governor for approval, Friday, decided W. L. Moore, president of the Woford Oil Company of Georgia, to drop his injunction suit to prevent distribution of gas tax money to schools and counties of the state.

In announcing withdrawal of the suit, which was set for a hearing Sep-

## Georgia Dry Leaders of 1907 DR. SMALL HONORED GUEST AT INFORMAL LUNCHEON Guests of Governor Hardman

The "Days of Auld Lang Syne" in the history of Georgia's march into prohibition territory were recalled Friday when a group of state leaders, most of whom played important parts in the passage of Georgia's first act in 1907, were guests of Governor L. G. Hardman at an informal luncheon at the executive mansion.

Dr. Sam W. Small, of the Constitution's editorial staff, was seated at the governor's right as guest of honor. This position went to the man employed by the governor in view of the fact that he is the only surviving member of the constitutional convention of 1877.

An air of easy informality marked the gathering and no program was offered, the time after luncheon being

taken up with conversational reminiscences of the days of the 1907 legisla-

ture when the Hardman-Neel-Coving-  
ton prohibition bill was being consid-

ered. Judge W. A. Covington and Governor Hardman, two of the then legisla-

tors who wrote and sponsored the measure, were present at the luncheon which marked the twenty-second anniversary of the measure's passage. John T. Knight, of Berrien county, a leader in the senate fight for the "bone-dry" act; Seaborn Wright of Rome, one of the staunchest of the house "drys," and D. F. McClellan, long-time secretary of the senate, who is now a member of the Georgia legislature, were also present.

Other guests not identified with the dry movement were J. N. Griffin, of Valdosta, Mrs. Hardman's

father, and L. G. Hardman, Jr., Sev-

eral invited guests were unable to

attend.

## R. N. Fickett, 82, To Fete Family At Party Tonight

R. N. Fickett, Atlanta manufac-

turer, who believes the man who always looks ahead never gets old, will be 82 today and tonight at his home, 826 Gaston street, S. W., will entertain 25 members of his family at a birthday anniversary dinner.

Mr. Fickett is president of the Fickett Manufacturing Company, makers of electric grills. He and his son, R. N. Fickett, Jr., are the only two persons ever associated with the executive end of the company. The elder Mr. Fickett still is in active charge and plans to remain indefinitely. The company had only Mr. Fickett, his son and two employees when it first

was launched. Now it has 90 em-  
ployees.

Mr. Fickett has been a daily reader

of

The Constitution since this news-

paper's first edition was taken off

its long since junked flatbed press.

His morning paper is his first thought,

and he lists it among the reasons why

he has not grown old.

## W. & A. Lease Commission Measure Given Approval Of Committee of House

Bill Is Expected To Come Up for Passage at Session of Lower Branch of Assembly Today.

Approved by a safe majority by a committee of the whole house late Friday afternoon the Western & Atlantic lease commission bill was returned to the house with a favorable report and will come up for passage probably at the morning session today. The bill provides for creating a special commission to lease the Union station site in Atlanta to a Chicago company to be used as a site for a 17-story office and storage building.

Consideration of the bill occupied nearly two hours of the afternoon session. Speeches in support of the measure were delivered by Representatives Davis, of Mitchell; Dickey, of Gordon, and Davis, of Floyd. The opposition to the passage was led by Representative Alexander, of DeKalb.

Representative Mitchell outlined the provisions of the bill. He said if any person or firm desires to deal with the state of Georgia in reference to the development of the state's property the commission should be named. It will be a deal. He said the personnel of the commission is named in the measure and consists of six outstanding citizens of the state.

**Personnel of Body.**

These are President Cecil B. Neill, of the senate; Speaker Richard B. Russell, of the house; Judge W. F. Jenkins, of the state bar; Mr. W. C. Clegg, of W. C. Clegg, banker of Dalton; C. K. C. Anderson, businessman and canalist of Thomasville; W. D. Anderson, of Macon, president of the Bibb Manufacturing Company, and Henry T. McIntosh, editor of the Albany Herald. McIntosh explained that the stipulations that the building of a permanent nature shall be erected on this site and said the Union station site in Atlanta is the only property of the state considered in the bill. He said the erection of the proposed structure does not interfere in any way with the tracks of the state-owned Western & Atlantic at the present terminal as the proposed building is to be constructed above the tracks.

Farmers of Georgia would be definitely benefited by the erection of the proposed building, according to Representative Davis, of Floyd. He said the members had been talking about doing something for the farmers of Georgia and he said now is the time for them to do something definite by enacting this bill into a law. He said the bill would be a great service for the protection of perishable crops of vegetables and fruits and would be of inestimable value to the people of the state. He said it also would be a valuable addition to the state's investment in the railroad system.

**Alexander's Bill.**

In his speech against the bill, Representative Alexander was first allowed 20 minutes and then by unanimous consent was given additional time. He argued that he was a member of the legislature in 1906 and was at that time present when the state's property in Chattanooga, Tenn., he leased to C. E. James and associates of that city for development purposes. He said the state had lost much money by failure to negotiate the lease at that time. He also said that the erection of the proposed building would impair the terminal facilities of the state road in Atlanta.

After the debate the committee voted to return a favorable report. Chairman of the committee of the whole house returned the favorable report on the bill and motion was then made to table the bill but this was defeated when a motion to adjourn to meet again at 9 o'clock Saturday morning was adopted.

## BRIGHT LEAF TOBACCO MARKET SEASON ENDS

### Offerings in Final Week, Mostly Poor Grade, Sell at Good Prices.

Asheville, N. C., August 16.—(P)—The sale of Georgia's bright leaf tobacco practically came to an end for the season today with the close of the trading in the 22 markets scattered throughout the belt.

Most of the markets already have closed their warehouses and next week will show only a few open to take care of the weed that was late in maturing.

The acreage includes 163 tracts and its valuation was declared to be \$527,118.46.

Verne Rhoades, executive secretary of the commission, reported that 41 tracts of land had been acquired during the week. These tracts, said

the acreage includes 3,285 acres, valued at \$84,542, are in Swain and Haywood counties.

It was said that the total acreage acquired by the commission represents about one-fourth of the 214,000 acres North Carolina must secure.

Plans to acquire a like number of acres in the state will be made at a meeting in its executive offices here.

The fact that May Day was commemorated by various groups in almost every country almost four months ago, does not deter the Nit Wits from holding their own little celebration over the Columbia platform tonight at 7 o'clock.

The Nit Wits whose slogan is "Fun for All and Fun for Fun" are only led by Brad Browne, who is only responsible for their various musical activities. Every week they present, as a feature of their broadcast, a burlesque on some outstanding event and for their hectic May Day party this Saturday, the Nit Wits will romp through a half-hour of fun and nonsense for the radio audience.

## WOMAN'S AIR DERBY ENTRY IS FORCED DOWN IN MOUNTAIN

Santa Monica, Cal., August 16.—(AP)—A new motor was en route from here to Flat Top mountain, in Arizona, today for installation in Miss Ruth Nichols' airplane, which she was forced to land on the isolated mountain Wednesday while on her way to enter the Santa Monica-Cleveland women's air derby starting next Sunday.

First word from Miss Nichols was received yesterday from Salome, Ariz., where the young woman walked from Flat Top mountain, which is over 40 miles of mountain and desert waste, to seek help. When she was found, her mistake in taking the wrong trail, the rough character of the terrain, she had made a successful landing after her motor stopped.

A crew of mechanics accompanied the new motor, and expected to have it installed in time for Miss Nichols to land at Clover field with the other contestants when the derby starts.

## WOMAN SEVERELY BURNED; ASSAILANT HUNTED IN GOTHAM

New York, August 16.—(AP)—Mrs. Anna Croftfield, 35 years old, of Brooklyn, was near death from burns today and detectives were seeking a mysterious assailant who they believed threw turpentine on her and set fire to it.

The woman, was found in the rear yard of her home by neighbors attracted by her screams as she attempted to beat out the fire with her bare hands.

A bottle which apparently had contained turpentine was found near by.

She said she neither saw nor heard anyone when she stepped out of her store and saw her clothes burst into flames. She told detectives she had no matches or lights with her.

Detectives were seeking George Croftfield, the woman's husband, from whom she was estranged.

## LIQUOR-LADEN BRITISH VESSEL IS SEIZED BY U. S.

Norfolk, Va., August 16.—(AP)—The British liquor-laden ship captured this morning by the coast guard patrol boat CG-194 off the Virginia coast and is being brought to the section base here.

The schooner, an oil burner, well known and used in coast guard patrol circles, left Bermuda August 11 with approximately 900 cases of rum aboard, ostensibly bound for St. Pierre, the port of the Island of Martinique, in the St. Lawrence river. In the absence of the commander, Lieut. Commander C. F. H. Scott, commanding officer of the division, went to section base eight, along with customs men to board the incoming vessel. They will make an inspection and talk with the crew in regard to the customs for disposition and the crew over to federal authorities.

The name of the schooner, although she is listed in the current issue of the New York Maritime Register, as in transit from port to port, does not appear in Lloyd's register.

# MISS LEONARD WEDS MR. M'GILL SEPT. 4 IN NASHVILLE

## Popular Tennessee Belle To Be Bride of Atlantan

The announcement that Wednesday, September 4, is the date set for the marriage of Miss Mary Elizabeth Leonard, of Nashville, Tenn., to Ralph E. McGill, of Atlanta, formerly of Nashville, is of wide social interest throughout the south, where both the bride and the groom-elect enjoy wife popularity. The ceremony will be performed at 10 o'clock in the morning at the Rightman Memorial church in Nashville in the presence of an assemblage of relatives and close friends, with Rev. Dr. Fitzgerald Parker, lifelong friend of the bride-elect's family, officiating.

The bride will be given in marriage by her father, Dr. Thomas A. Leonard, and the groom-elect will be attended by Edward Danforth, of Atlanta. Mrs. Edward Danforth will act as matron-of-honor and will be the bride-elect's only attendant. The ushers will include David McQuiddy, Dan E. McGugin, Evans Joseph and William J. Wade. Immediately after the marriage service Mr. McGill and his bride-elect will leave for a wedding trip, after which they will return to Atlanta, where they will make their home in the Roane Oaks apartments, 491 Seminole avenue.

Like his bride-to-be, Mr. McGill is a representative of distinguished southern families. Since coming to Atlanta several months ago as sports writer he has made a host of friends to whom he will introduce his attractive bride, who will be a charming addition to Atlanta's young married contingent.

### 449 BALES COTTON ALREADY RECEIVED AT ALBANY MARKET

Albany, Ga., August 16.—(Special)—Striking evidence of the early cotton season this year is afforded in cotton receipts at local warehouses. At this time last year not a bale had been received by either of the two cotton warehouses here. Today there had been received at both warehouses 449 bales of cotton. Farmers have been taking advantage of the crop-gathering weather and have gotten off to a good start in picking their cotton crop. The first bale of cotton was received this year on July 23. Last year it was August 18 before the first bale was received.

With the cotton crop in this section will not be as large as the prospects indicated the early part of the season, due to excessive rains and ravages of the boll weevil last month, the crop as a whole will be much larger than last season and farmers have a much more optimistic outlook on the future.

### MRS. J. R. M'MICHAEL PASSES ON VISIT TO BUENA VISTA

Buena Vista, Ga., August 16.—(Special)—Mrs. Ella A. McMichael, 85, pioneer citizen of Marion county, died here yesterday morning. She was the daughter of Mrs. J. E. Lowe, Mrs. McMichael for the past two years had been living with her daughter, Mrs. Susie Johnson, of Emory university, and was here on a visit when taken ill several days ago.

Mrs. McMichael had resided in Harrison county in 1844 but had been living in Marion county since 1847. She was the wife of the late Dr. J. R. McMichael, Confederate veteran. Mrs. McMichael was a member of the Marion county chapter, U. D. C., and has just returned from a visit to members of the Confederacy in honor of that chapter when an auto accident in Atlanta last summer impaired her eyesight and health.

She was the mother of 13 children, eight of whom survive her. Mrs. Edward B. G. Johnson, Mrs. Emma and Mrs. Luis Passmore, of Atlanta; Dr. R. L. McMichael and Mrs. J. E. Lowe, of Buena Vista; Dr. J. R. McMichael, of Quitman; V. L. McMichael, of Columbus; and Albert McMichael, of Americus. The deceased children are E. H. McMichael, Mrs. Warren White, Mrs. Lillian Hammer, Roy McMichael and Morgan McMichael. Funeral services will be held here at 10 o'clock Sunday morning.

### HUNTER IS FREE IN ACCIDENT DEATH OF G. W. PERRY

Savannah, Ga., August 16.—(Special)—E. E. White, whose gun accidentally discharged yesterday, and fatally wounded George W. Perry while the two were hiking through woods near here, was exonerated of blame today by a coroner's jury, which investigated Perry's death. The gun was said to have discharged when it fell to the ground.

Perry was a member of a local military organization and will be given a military funeral tomorrow. A liquor still which White said he saw in the woods yesterday while with Perry was found and destroyed by county police today, but its operators were not located.

### MANY G.M.C. ALUMNI AMONG OFFICERS OF 325TH INFANTRY

Fort Sill, Ga., August 16.—(Special)—Alumni of the Georgia Military college at Milledgeville greatly outnumber the other 10,000 officers and alumni among officers of the 325th infantry now in annual encampment at Fort Sill.

The commanding officer, Colonel William E. Wilder, of Albany, was graduated at G. M. C. in 1897. Lieutenant Colonel Eli J. Peacock, of Macon, second in command, also was graduated at the college, as well as First Lieutenant Edward B. Turner, regimental adjutant of Columbus, and Major Muldrow, of Cuthbert.

Of the seven officers composing the regimental staff five were graduated by G. M. C. Also each battalion and company throughout the regiment a larger percentage of the officers are alumni of the Milledgeville school.

**Rites at Camilla For E. G. Youngblood, Confederate Veteran**  
Barnesville, Ga., August 16. (Special)—Midway Baptist church, near Barnesville, celebrated its ninety-first birthday Sunday, and also paid tribute to the memory of Rev. D. W. Oliver, who was pastor for 38 years. Hundreds of people from all parts of the state were present at this homecoming day.

ALL THE FELLOWS WENT DOWN TO CAVE RIVER TO SEE THE MAGIC AND THE SKINNY GUY TOOK BILL DARBY AND ME AROUND TO THE BACK ENTRANCE. GEE! SKINNY SCARED THEM, BUT I YELLED TO THEM TO WAIT. WHICH THEY DID.

OUR CAPTAIN TURNED HIS FLASHLIGHT ON LINK. "I THOUGHT IT WAS YOU, YOU SKINNY FACE," HE SAID. "WHAT'S THE IDEA? SCARING A GUY LIKE THAT?" BUT I STEPPED UP AND SAID, "SHUT UP, JOHNNY! CAN'T YOU SEE THE IDEA?"

JERRY MOORE AND CLARENCE WILKS SHOCK THE SKINNY GUY'S HAND. "GOOD OLD SCOUT!" THEY SAID LAUGHING. "YOU SURE DID SCARE THOSE PELHAMS! THEY'LL NEVER COME IN THIS CAVE AGAIN!" OUR CAPTAIN SAID, "EXCUSE ME, LINK, FOR BEING SASSY!"

SKINNY SAID "YOU FOLKS HURRY OUT AND MAKE THE PELHAMS THINK YOU ARE AWFUL SCARED." THEY BEAT IT OUT AND I SAID, "SKINNY, YOU AND BILL AND I WILL HAVE TO GO OUT THE WAY WE CAME IN." WHICH WE DID. SICK. GONE TILL MONDAY.

# CARDINALS WIN AT MERIDIAN, 7 TO 5

WILL PERFORM  
BEFORE MOBILE  
GAME TODAY

Fans Offered Chance To  
See Sandlot Stars in  
Action.

Inman Park's Cardinals, with the state championship and the regional eliminations behind them, arrive this morning from Meridian, Miss., where they crushed the Biloxi and Tampa teams for the right to enter the eastern championship series at Washington August 20. Atlanta fans will have a chance to honor them this afternoon. They will take a workout at Spiller field ten minutes before the Mobile-Atlanta game at 2:30 o'clock this afternoon. They will then be the guests of R. J. Spiller, president of the Cracker club. Many of them work at the ball park during the summer, hustling drinks. They plan to sit in the box this afternoon and yell for the boys to serve them.

**TO WASHINGTON.**  
The triumph of the Cardinals at Meridian was not unexpected. Their play in the state tournament at Albany was smart and skillful. They will go to Washington for the eastern eliminations as one of the outstanding teams.

The visitors at Washington, in three days of play there, will meet the winner of the western finals in the junior world series at Louisville, September 4, 5 and 6.

The triumph of the Cardinals aroused much enthusiasm in the city. Ollis to the sports department of the Constitution were as numerous as they were when the Crackers were in the thick of the pennant fight a few weeks ago.

**CARDS PRAISED.**

Trammell Scott, well known sportsman; W. A. Alexander, Georgia Tech coach, and other Atlanta citizens joined in praise of the game little seen team that has brought so much attention to amateur baseball in Atlanta.

The National Sandlot baseball tournament is managed by the American Legion with the co-operation of the major leagues. The leagues set aside \$50,000 each year for the tournament. The tournaments after the state championships are decided in various legion posts in the state defray the expenses of that phase of the tournament.

Frank Haas represented the local legion post and was in charge of the team at Albany and Meridian. The Atlanta Cardinals, Atlanta sandlotters, today won the American Legion junior baseball championship for the district of Birmingham, Alabama, Georgia, Florida and Mississippi, by defeating the Juniors of Tampa, Fla., in the final game, 7 to 5.

The Georgians yesterday eliminated Biloxi, Miss., while the Floridians defeated Mignon, Ala. The district team is Joe Gershon, the batboy and mascot. The budget does not include expenses for those other than the actual team. Through the efforts of several Atlantans and the Constitution the ten-year-old mascot was sent to Meridian. An effort will be made to send him with the team to Washington.

Asheville, N. C., August 16.—(AP)—The last, Tom Leary, engaged in a 21-hole playoff for medal honors after tieing in the 18-hole qualifying round, tomorrow will be pitted against each other in the finals of the women's seventh annual invitation golf tournament at the Asheville Golf and Country Club.

Leary, N. C., and Mrs. Carl Head, Birmingham, Ala., are the finalists as results of semi-final triumphs today.

In vanquishing Mrs. John Zimmerman, Lexington, Va., 6 and 5, Mrs. Head, 18, 10 and 8, Mrs. F. F. Farnsworth, 28, 10 and 8, Harper, 17, the new record was broken, the former record set five years ago by Miss Glenn Collett, national women's champion.

By Ed Danforth

Plenty of seats are available for the Yale-Georgia game. That was the word from H. J. Stegeman, athletic director of the University of Georgia, who was here yesterday shopping for bandages and rubbing fluid.

"An impression has been spread that all the choice seats have been sold for the Yale game," Stegeman said. "We have received many letters from all over the south complaining that the seat sale was pushed so fast that the general public had no chance at all."

"Our new stadium seats 33,000 people and we can care for 40,000. Several thousand seats have been sold to alumni, but there are more than plenty of seats on the favorite yard lines to supply everybody in the south who can come."

### CHAMPION PROPHET.

Stegeman guessed that Florida, Tulane Tennessee, and Alabama would make trouble for everybody this fall and that North Carolina probably would be the toughest outfit in the North Atlantic section.

**"We will win 4, tie 2 and lose 2," Steg replied, just like that.**

At the end of the season that was the exact count on the Bulldogs. This has set an all-time record for soothsaying.

### VOL "TEN" GAINS.

The ten-man Nashville club, of which Robert Rightfield Phence is No. 10, is gaining steadily on one and all. The Vols trail along with never a base hit until late in the game.

**Then the visiting pitcher walks a couple of men and one of the Vol left-handed hitters lifts a short fly beyond the fence and they all come home with the ball game.**

Of course, one of the main functions of R. R. Phence is to mesmerize the visiting nine. As long as that wall is sitting right back of first base, enemy pitchers are nervous and trying to keep the ball beyond the reach of the Vol left-handers. The fence is a menace, a cloud, a grinning jinx sitting out there. All that helps the Vols climb.

### TOUGH ON LEGS.

One of my inside men in Nashville reports that the epidemic of home run hitting in the Nashville park has all but wrecked the Vols physically.

**He says that, to begin with, the main reason the Vols began playing for that fence is that a home run gives them a chance to circle the bases at a dog trot. There were so many—er—leisurely players on the Nashville club and players with bum legs that this offers a great opportunity for them to save their pins.**

However, long disuse of the legs for running at top speed has made their under-pinnings very wobbly. He expressed the fear that one day a visiting player will drag a bunt down between first and second, that Jim Poole and Jay Partridge will move after it, run together and die from starvation leaning against each other.

All this, of course, may be merely the unwarranted fears of my inside man in Nashville. However, it may give the tip off on the Vols when they hit the road again. They should lose plenty.

Asheville, N. C., August 16.—(AP)—S. C. Graham, captain in 1924 of the Virginia Polytechnic Institute football team and selected as All-South Atlantic tackle, has been appointed freshman coach at Rollins college, according to announcement from the administration offices here today.

Graham will assist Jack MacDowell, who will succeed J. F. Bailey as director of sports at the college. Graham has been coaching with MacDowell's system, college officials said, in which he makes heavy use of the British game.

## Cubs Set Record By Signing Youth

New York, August 16.—(AP)—The Cubs set a new major league record today by signing a player just 16 years old. He is "Red" Solomon, manager and third baseman of the New York Kiwanis Club team despite his extreme youth.

An agreement was entered into between the boy's parents and Joe T. Quinn, general manager of the Waite Hoyt signed by the Giants in 1915 at the age of 16, previously was the youngest major league recruit.

Chicago's lead in the National league pennant race was reduced to 7 1/2 games Friday when the league-leaders dropped their second straight game to Brooklyn and Pittsburgh.

Although the Cubs outhit the Robins 9 to 7, they were unable to score on Ray Moss and the lead.

Brooklyn and Pittsburgh had only one man left on base. Johnny Frederick hit his nineteenth home run of the season with Moss on base.

Collecting 15 hits, the Pirates walked the Braves 9 to 3. Pie Traynor smashed out four hits in his first trip to the plate.

The Cardinals beat the Philadelphia Athletics 7 to 3. Lefty O'Doul hit his twenty-fourth home of the season.

The Giants and Cardinals were idle.

**AMERICAN LEAGUE.** With Babe Ruth hitting his thirty-second home in the Indians' slate when young Bill Shantz checked off a ninth-inning error, George Easdale and the Indians' two-hitter won the win.

Shantz, two hits, was injured in the fourth, but was replaced by Ferrell.

The A's hit Joe Shantz hard in the early fourth, finally driving him from the hill.

When they scored what proved to be the winning run off Shantz, the Indians' slate was 10-2.

by Clarence Budington Kelland

INSTALMENT XXIV.  
They turned as one and looked down the bluestone drive toward the gate, from which approached a dapper figure, swinging a light cane.

"What's the well-dressed Asiatic about?" said Mr. Bundy.

"I don't hold with Japanese," said Mr. Bundy. "My sympathies are all with California."

"They're good acrobats," said Damon hopefully. "Maybe he's come to do that."

"Not on my lawn," said Mr. Bundy grimly, and then they fell silent as Mr. Tajima approached and bowed with highly ingratiating amiability.

"I am Mr. Tajima," he said, the words emerging from an expanse of very white teeth. "And I think I speak with Mr. Timon."

"My name," admitted the father of the family.

"Excuse me; I have a matter of private business to discuss."

"Mr. Bundy," regarded him sons.

"This, however, is about as private as you'll ever get it here."

"It's something out of Pa's past," said Gelon, nudging his twin.

"Yeah," answered Theron, sotto voce. "Pa looks embarrassed. Never suspected him of an Oriental entanglement."

"Hush up," said Mr. Bundy, and then, turning to Mr. Tajima, "what's your business?"

"First," said the Japanese, "I wish to say that I have it all written out in words and paragraphs in an envelope which I have enclosed to you who may be depended upon. If I am not returned to my home by a certain hour, this envelope will be delivered to persons in executive positions."

"They're a wily race," said Damon.

"It is a business of delicacy," said Mr. Tajima. "She'll speak it from here to come instant."

"Come closer," said Mr. Bundy, and as Mr. Tajima mounted the steps Damon and Pythias as if by instinct moved to take up a position behind him, so he stood in an irregular ring of Bundys. His yellow blouse darted unawares from one to the other, and then he smiled again his fawning smile.

"I am very friendly," he said. "I come to avert a misfortune."

"Kind of him, ain't it?" Pythias asked of Damon, who wriggled very capable shoulders under his coat and nodded.

"I think," said Gelon sentimentally, "I smell skunk."

Theron laid a bronzed hand on Mr. Tajima's shoulder and wagged the little man back and forth playfully. "Got a friend by the name of Blade?" he asked. Mr. Tajima regarded the big young man as comprehensively.

"No friend of such name," he said. "I know," declared Theron. "He's heard about Pa's driving. I bet he's a chauffeur. It's no good, little man. Can't be taught."

"That is not my business," said Mr. Tajima, who obviously did not know how to regard the conversation of which he was the object. He grew manifestly uneasy. "My business is of a revolver from which shots had been fired."

"I guess," said Mr. Bundy, "we better let him talk. Nobody gets a chance to edge in a word with you boys around. Go ahead, mister. What-you-say-your-name-is?"

"Mr. Tajima," said the Japanese. "You sir, saw a revolver fall to the floor and pick same up."

"Who told you?" asked Mr. Bundy.

"That does not signify. No. On the same night a man for whom I am servant and cook becomes deceased. I am not present, but I return at the moment when one man and one young woman leave the door to determine the fate of the woman. Then, for many weeks, I look here and there until I see the young woman again, and I visit her in friendly spirit."

"Did you visit the man too?" asked Mr. Bundy.

"I have not found him. But I do to this young woman that I do not wish to make a report to persons in authority that would be unpleasant."

"And so I said?"

"That, by reason of poverty, she was not able to satisfy very reasonable request."

"Did you specify the amount?" asked Mr. Bundy.

"A very small sum for so great a service; namely, \$25,000. But she did not guess this sum. Thereupon I say, ask in for your wealthy and distinguished parent."

"Which," said Mr. Bundy, "she refused to specify."

"Firmly," said Mr. Tajima. "She says she would prefer my disclosing her to the authorities to that alternative."

"Time out," said Damon, "till we catch up. You seem to know what this boy is talking about, Pa. What's the idea?"

"He thinks," said Mr. Bundy, "he knows something about Martha, and has attempted to blackmail her."

"We can buy him in the collar," said Pythias.

BY JOHN P. BOUGHAN,

Associated Press Market Editor.

Chicago, August 16.—(AP)—Wheat prices ran up like wildfire today, chiefly as a result of wretched threshing returns from the wheat crop of the Canadian prairie provinces. Excited buying of wheat future deliveries swept the market here bare of offerings until quotations had gone 10c a bushel above what the grain could have been purchased at 48 hours before. Threshing advices were disappointing also from American spring wheat territory, including states on the Pacific coast, and a big falling off in receipts of domestic winter wheat was likewise apparent.

After a maximum advance of 5-3-8c a bushel today as compared with yesterday's finish, Chicago wheat closed unsettled with 4-2-6 to 5c net gain. Corn closed 1c to 2-7-8c up, oats 1-1-8c to 1-7-8c advance, and propane showing a rise varying from 2c to 4c.

Wheat trading started with a general rush to the buying side of the market, the immediate stimulus coming from Winnipeg dispatches saying that harvest returns from central Saskatchewan province, Canada, were in line with the quantity and quality of wheat.

There were also reports at hand that for more than 200 miles between Moosejaw and Wakaw no poorer Canadian crop has ever been seen in 24 years.

Almost simultaneously, estimates were

out today from the United States department of agriculture indicating that 1929 world wheat production will be 15,000,000 bushels less than last year.

By many wheat traders, special significance was attached to announcement that today's primary arrivals of wheat in the United States were reduced to below either the amount received a week or a year ago, but to only 2,900,000 bushels and respectively 3,381,000 bushels and 8,110,000 bushels for the corresponding time last week and last year. This showing was generally taken to indicate that the big rural movement of winter wheat to terminal markets this season is over, with signs pointing to greater shortage of spring wheat than had been looked for in this country as well.

Less attention than of late was given to European demand, although the seaboard estimated that 1,000,000 bushels of North American wheat had been taken today for trans-Atlantic shipment. Inasmuch as United States wheat appears now to be no longer begged for an outlet, the trade's urge seemed to be about unchanged.

It is to foreigners coming in as buyers when they are ready, with the market meanwhile in a lively advance, with harvest weather in Europe less auspicious and with drought continuing in Argentina.

Corn, oats and provisions advanced with wheat and on account of increasing need of grain over wide areas of the corn belt.

## THE RETURN OF TARZAN No. 60

By Edgar Rice Burroughs

The next morning as they prepared to embark upon the cruiser, Tarzan said to Jane: "Wild beasts are supposed to be devoid of sentiment. But nevertheless, I should like to be married in the cabin where I was born, beside the graves of my mother and my father, and surrounded by the

savage jungle that has always been my home. And so beneath the shade of the primeval forest there was a double wedding. For Lord Tennington had won the hand of Jane's friend, the American heiress. Afterwards, as the cruiser got underway, Tarzan, immaculate in white, leaned against

the rail, a graceful girl beside him. Filled with happiness, the forest-god bent down and kissed his mate upon her lips.

Twenty naked, black warriors, waving war spears above their heads, shouted farewell to their king

as he departed on the "great canoe." And Tarzan, waving good-bye, said to his wife: "I should hate to think that I am looking upon the jungle for the last time, dear, were it not that I know I am going to a new world of happiness with you forever."

## Creation of Thirteenth Ward In Atlanta Provided in Bill Introduced. Before House

Representative Still Pre-sents Measure Naming Rusk, Reynolds, Cobb To Enlarge Council.

Creation of a new ward in Atlanta will be called the 13th ward, is provided in an amendment to the city charter of Atlanta, introduced in the house Friday by Representative Luther Still, of Fulton county.

Under provisions of the measure the territory of the new ward would be taken from the boundaries of the present 12th and 13th wards, making the size of the new by one-half. The territory in the proposed 13th ward would include the Morningside section, Virginia Hills and part of Druid Hills. The southern boundary would be St. Charles avenue and the western the Southern railway, which extends north from Ponce de Leon avenue.

It is provided in the bill that R. M. Cobb, Jr., present councilman from the ninth ward, is to serve as alderman of the new ward and Parks Rusk, of the 12th ward, and R. L. Reynolds, lawyer, as councilmen. Mr. Rusk is to serve until January 1, 1932, and Mr. Cobb until January 1, 1931. Member of the board of education from the new ward would serve until January 1, 1930, when a successor would be named by council.

Representative Still said he had introduced the measure by request. He said he had received several letters protesting against passage of the bill.
